
1. Use any 12X12 size paper.
2. Cut off of one side 3”, leaving you a 12X9 size paper.
3. Score each side at 3” intervals. (Dashed lines are for scoring)
4. Cut away two of the 3”x3” boxes.
5. Score the box that is itself at a 1” mark.
6. Fold each corner piece in.
7. Tape the folds to the square next to it.
8. Tape down a piece of cardstock before setting eyelets. Designer paper is so flimsy and the eyelets will need a little more support for the handle.
9. Set large circle eyelets for the handle.
10. String grosgain ribbon for handle.
11. Attach two buttons using dimensionals for purse latch.
12. Use metallic cording to wrap around the buttons to hold latch closed.

***Do not wrap the cording too tightly or it will cut under the dimensional and the buttons will fall off.
